BOOK SYNOPSIS

This manual is designed for use in conjunction with Hazardous Materials (HazMat) Emergency Response training. This training is designed to give responders the tools necessary to locate the appropriate information on a spilled or released substance, to assess the hazards presented by the spilled material, to don appropriate personal protective equipment, to clean up the spill, to properly dispose of the substance and the clean-up media, to report actions taken for internal documentation, and to report the spill or release to local, regional, state, and/or federal authorities, if required. It also teaches you how to respond to a spill that may pose hazards beyond your capabilities to safely control.--P. [4] of cover.
